Manang Clinic Update Special Insert: Key Personnel

HFHP-Nepal President: Mr. Dhorje D Gurung

Mr. Dhorje Dandul Gurung
President, HFHP-Nepal

Mr. Gurung was born in Thonche, a small village in the district of Manang, Nepal. He attended and completed higher secondary education from the Central School for Tibetans in Mussorie, India. He was one of the few children in his village at the time to attend a school in India. Unfortunately, he was unable to continue with his further education due to the collapse of his father's trade business with Tibetan merchants after the occupation of Tibet by China in 1959. That is when he began a professional career, working as an accountant and supervisor for Buddha Construction Company in Nepal.

It is in the field of Social Work, however, where he finds himself most dedicated, and where he feels truly satisfied. He has been involved in several projects and initiatives, most of which focus on the district of Manang. Mr. Gurung is the Chair for the Kathmandu-Manang District Service Center. He currently serves as the Treasurer for the Manang Development Society. He is the Coordinator for the Lhamjung-Manang District Road Development Society.

**Medical Officer:
Dr. Sunil Shah**

Dr. Shah was born in 1990 to Mr. Bhuwan Raj Shah and Mrs. Sita Devi Shah of Kathmandu, Nepal. Since childhood, he used to feel bad and disheartened when people suffered and often died even due to seemingly simple health problems in Nepal. This issue was exacerbated in rural Nepal due to limited availability of healthcare facilities. This motivated Dr. Shah to be interested in the medical field from early on in his childhood.

Dr. Shah completed his secondary education from Ratna Rajya School in the capital with a distinction. He completed MBBS at a Tribhuban University affiliated Universal College of Medical Science on a Nepal government scholarship. After his education, he worked for two years under Nepal Government's Department of Health in two remote areas, namely, Taulihawa district and Kharanitar in Nuwakot district. Currently, he is working as a medical officer in Manang district in association with Himalayan Family Health Care Project. He enjoys working in the medical field and derives happiness from helping others through health service.

**Medical Officer:
Dr. Himal Panth**

Dr. Himal Panth, son of father Mr. Netra Prasad Panth and mother Mrs. Saraswati Panth, was born in Dharampani, a village in the district of Gulmi, Nepal in 1990. He completed his secondary education from Shree Maindanda Higher Secondary School in Gulmi and C.B. Public School in Rupandehi and his higher secondary education from Tilottama Higher Secondary School in Yogikuti, Rupandehi. He was a recipient of Nepal Government scholarship to study MBBS at Tribhuban University affiliated Universal College of Medical Sciences, Bhairahawa. He worked two years as Medical Officer in remote Tahoon Primary Health Care Centre, Palpa and Basantpur Primary Health Care Centre, Rupandehi.

With his deep interest and dedication to serve rural areas of Nepal, he got involved with Himalayan Health Care Family Project as Medical Officer at the HFHP's Thonche health clinic. He is extremely happy to be involved with Himalayan Family Healthcare Project and with the people of Manang. He hopes to complete Masters in the near future so that he can continue better serving the people of rural Nepal.

**Staff Nurse:
Alisha Gurung**
